

DISCUSSION: A cold front was situated south of the country and with a high ridging behind it as well as a surface trough over the western interior, cool to warm and conditions with isolated showers and thundershowers as well as light rain in places occurred over Gauteng, North-West, KwaZulu-Natal and the Northern and Western Cape. It was very hot in places over the Limpopo Province and the Western and Eastern Cape and very hot to extremely hot in places over the Northern Cape.
