RFQ Terms of Reference for services

Template: RFQ Terms of Reference for Services – Annexure H

1 DESCRIPTION

The South African Weather Service (SAWS) requires a service provider skilled in mass printing and the design and production of various corporate documents and training manuals. These services are critical to support the technical training aspects of the (SAWS) and the Donor-Funded Integrated Climate-driven Multi-Hazard Early Warning System (ICMHEWS) Project.

Delivery of the services must be made to the SAWS regional offices in Thohoyandou and Centurion. Bidders are expected to provide a comprehensive catalogue of their mass printing work and document design capabilities, along with proof of successful completion of significant general print media projects, demonstrating their ability to manage large-scale printing and design operations.

2 INTRODUCTION

The South African Weather Service (SAWS) is a public entity of the Department of Forestry, Fisheries and the Environment (DFFE) and derives its mandate from the South African Weather Service Act (No 8 of 2001) and as amended in 2013 (Act No 48 of 2013). The public entity is listed as a Schedule 3A Public Entity in terms of the Public Finance Management Act (PFMA).

SAWS has a dual mandate, to provide timely and accurate scientific data in the field of meteorology to the broader South African society, encompassing both public good and commercial services. The organisation plays a vital role in South African public life, not only as a provider of key services, but also in empowering citizens to adapt to the effects of the ever-changing weather.

The organisation specifically will need a service provider for the design and printing of training manuals, plot charts, various print media for marketing and promotion, as well as for the design of corporate documents for reporting, needed by the project.
