Nil.

ADVISORIES:

Nil.

1. GAUTENG:

Fine and cool but warm in the extreme north.

The expected UVB sunburn index: Very High

2. MPUMALANGA:

Partly cloudy in the east at first with morning fog along the escarpment, otherwise fine and cool to warm.

3. LIMPOPO:

Fine and cool to warm but partly cloudy in the north-east.

4. NORTH-WEST PROVINCE:

Fine and cool to warm.

5. FREE STATE:

Morning fog patches in the east, fine and cool to warm.

6. NORTHERN CAPE:

Morning fog along the coast where it will be partly cloudy, otherwise fine and cool to warm.

Wind along the coast will be moderate to fresh southerly becoming strong in the afternoon.

7. WESTERN CAPE:

Morning fog patches along the south coast and in places along the west coast but cloudy to partly cloudy and cool but cold in places along the south coast and adjacent interior, otherwise fine. Light rain can be expected over the Overberg from the early morning, spreading to the Garden Route and the southern parts of the Breede Valley by afternoon.

The wind along the coast will be fresh south-easterly along the south coast but strong in along the west and south-west coast.

The expected UVB sunburn index:Low

8. WESTERN HALF OF THE EASTERN CAPE:

Morning fog in the south, otherwise partly cloudy and cool to warm. It will become cloudy with isolated showers and rain south of the escarpment from the afternoon, but scattered along the coast.

The wind along the coast will be Light and variable in places at first, otherwise moderate to fresh south-westerly, becoming south-easterly from the evening.

9. EASTERN HALF OF THE EASTERN CAPE:

Morning fog in places in the south, otherwise partly cloudy and cool to warm, but fine in the east. It will become cloudy south of the escarpment from evening with light rain in the south-west.

The wind along the coast will be Light to moderate north-easterly, becoming moderate to fresh south-westerly from the south mid-morning, reaching strong in places.

10. KWAZULU-NATAL:

Morning fog in patches over the interior except the south-western parts, otherwise fine and warm.

The wind along the coast will be Moderate to fresh north-easterly, becoming strong in places at times.

The expected UVB sunburn index: Very High
