

SYNOPTIC WEATHER MAP  
SINOPTIESE WEERKAART

12:00 UT - 14:00 SAST:2019-01-23

**DISCUSSION:** A cold front was situated southeast of the country and with a high ridging behind it as well as a surface trough over the eastern interior, partly cloudy to cloudy and cool to warm and hot conditions with showers and light rain occurred over KwaZulu-Natal and in places over the remainder of the country, except over the Limpopo Province and the Northern Cape. It was very hot in places over the country, except over the Western Cape but also extremely hot in places over North-West and the Northern Cape.

**BESPREKING:** 'n Kouefront was suidoos van die land geleë en met 'n hoog wat daaragter inrug sowel as 'n oppervlaktrog oor die oostelike binneland, het gedeeltelik bewolkte tot bewolkte en koel tot warm en baie warm toestande met buie en ligte reën oor KwaZulu-Natal en plek-plek oor die res van die land, behalwe oor die Limpopo Provinsie en die Noord-Kaap, voorgekom. Dit was bloedig warm plek-plek oor die land, behalwe oor die Wes-Kaap, maar buitengewoon warm plek-plek oor Noordwes en die Noord-Kaap.
